# Erase your carbon, restore the ecology

We see a world where climate re-balancing and ecological restoration go hand-in-hand.

Thriving ecosystems can provide up to 37 percent of the emission reductions needed by 2030 to keep global temperature increases under 2°C\*.

SkyHarvest identifies and empowers initiatives that transform degraded land into living ecosystems of accelerated carbon drawdown.

## Volunteer with SkyHarvest building soil and planting seeds at Diamond Mountain

February 26th - March 4th, 2023  
Bear Springs Ecological Restoration Project
